

# Agriculture, Construction and Earth-Moving Equipment (ACE)

## ...TIGER powder coatings have it all!

**TIGER Drylac®** offers surface finishing solutions for Agriculture, Construction and Earth-Moving Equipment (ACE). This includes mining, forestry equipment, heavy trailers, lawn mowers, snow plows, fork lifts and more. ACE equipment faces harsh environmental conditions, such as high temperatures and humidity, that relentlessly attack exterior finishes. That is why a powder coating needs to be both aesthetically pleasing and strong enough to preserve your equipment in the field.

The TIGER Technical and R&D team works directly with customers to innovate powder coatings that will protect equipment from UV exposure, color fade and gloss reduction. Beyond color, TIGER can also design custom formulations, including abrasion resistance, chemical resistance and edge coverage.

To discuss your product needs for the ACE market, please contact your local TIGER representative. We look forward to working with you!

## A selection of the many approvals available

PRODUCT ID	COLOR NAME	OEM	SURFACE	CHEMISTRY	SPECIFICATION APPROVAL
41880704	SD CNH Dark Gray	CNH	Smooth glossy	PE/TGIC	CNH MAT0103 Class 5
