

# NEW 44/00110

## Clear Super Flow SD

TIGER Drylac® has developed a new TGIC-Free polyurethane super durable (SD) clear coat. This clear exhibits excellent clarity while still providing a smoother and harder finish over our previous SD clear coatings.

### Key Features & Benefits

- High gloss super durable clear coat
- Excellent weather resistance
- Excellent clarity with less yellowing
- Very smooth flow
- Good storage stability
- Excellent intercoat adhesion

### Typical Applications

- Metal façades
- Steel constructions
- Stadium seating
- Residential windows and doors
- Patio furniture and garden equipment
- Railings
- Playground equipment
- Agriculture equipment
- External ship components, communication towers and doors

### Product Details

- TGIC-Free polyurethane super durable
- Available in original 22 & 33 lb (10 & 15 kg) boxes and 5 lb (2.5 kg) minipack
- This Clear meets AAMA 2604 in regards to gloss retention and chalking
- Consult the Product Data Sheet (PDS) for more details
