Take the Guesswork out of Color Matching

We know your customers are demanding, so stop wasting time trying to match powder coat samples. With the TIGER MatchStick 2 you take away the guesswork. TIGER MatchStick 2 puts precision color accuracy directly into your smart phone app. Scan the color of any flat surface and match to hundreds of TIGER Drylac® powder coating products.

Available to order directly from TIGER Drylac®. Contact us today to see how you can place an order on your account for a TIGER MatchStick 2.

MatchStick 2

Getting Started : TIGER MatchStick App

The TIGER MatchStick app integrates the device's color sensing technology, providing a seamless color communication tool for professional powder coaters, specifiers, painters, color sales representatives, graphic designers, and everyone in between. You can find the app on the App Store / Google Play by searching "**TIGER Drylac**".

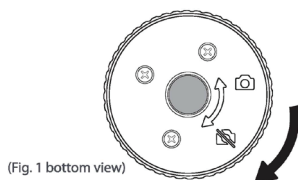

1. Download and Launch the App.

- You can find it on the Apple App Store or Google Play Store by searching for "**TIGER Drylac**".
- Launch app: Sign up or log in with your email address.

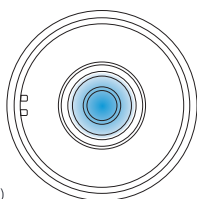

2. Connect and Calibrate.

- Ensure the shutter on the device is closed by lightly twisting the dial (3) clockwise (Fig. 1), then tap "Connect Device" within the app.

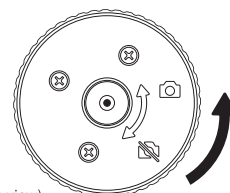

(Fig. 1 bottom view)

- Double press the wake button (1) on the TIGER MatchStick 2. The wake button (1) will intermittently glow blue (Fig. 2).

(Fig. 2 top view)

- The TIGER MatchStick 2 will automatically calibrate during the connection process. Once the device is connected, turn the dial (3) counter-clockwise to open the shutter (Fig. 3).
- You're now ready to scan your first color.

(Fig. 3 bottom view)

3. Capture and Create.

- Place the TIGER MatchStick 2 against any surface and press "Scan Now" in the app.
- The scanned color will appear (screen display color may not be accurate). Matching results will be displayed with top result listed first, second closest match second, etc.
