Powder Coated Components	Aluminum curtain wall, window and door frames
TIGER Drylac® Product ID	58/91541 - Spiral Silver 75/90127 - Spiral Silver
Estimated Completion	2022

Project Overview

The Spiral is 1,032 feet tall and features signature cascading terraces with hanging gardens wrapped around the façade in a spiral – like arrangement. More than 2.2 million square feet, out of the building’s total 2.6 million square feet, will be office space for companies like Debevoise & Plimpton and the pharmaceutical Pfizer. The design includes contemporary spaces with soaring ceilings and floor-to-ceiling windows overlooking Vessel, a lobby with 28 foot ceilings and approximately 25,000 square feet of retail space. Exterior façade is made of reflective glass panels. Once completed it will be the eighth tallest skyscraper in NYC.

About TIGER

TIGER Coatings is a global manufacturer of powder coatings and digital inks that serves an extensive variety of market segments including: architectural, automotive, jobs shops, general industry, agriculture and construction equipment (ACE), aerospace and defense and furniture. TIGER operates North American manufacturing facilities in the USA, Canada and Mexico, with multiple distribution centers under the brand name TIGER Drylac.
