NUEVOS Metálicos 3D

¡Ahora en la serie 138!

TIGER Drylac® ha combinado nuestra tecnología 3D Metallic con la química de nuestros productos de la Serie 138 para crear una nueva línea de productos metálicos de curado flexible. Nuestra Serie 138 3D Metallics se produce localmente con plazos de entrega rápidos. TIGER 3D Metallics ofrece un impresionante efecto 3D similar al de la pintura líquida, con una profundidad de efectos metálicos asombrosos y un brillo insuperable en una sola aplicación de pintura.

Características y ventajas principales

- Características y ventajas principales
- Excelente resistencia a la intemperie
- Excelente resistencia a los rayos ultravioleta
- Cumple con la norma AAMA 2604
- Muy buena nivelación
- Buena estabilidad de almacenamiento
- El curado completo puede alcanzarse en tan sólo 7 minutos**
- Certificación por laboratorios UL (Underwriter Laboratories)

Aplicaciones típicas

- Fachadas de metal
- Construcciones de acero
- Asientos para estadios
- Marcos de ventanas y puertas residenciales
- Muebles para exterior y equipos de jardinería
- Barandales
- Juegos infantiles para exterior
- Equipos para agricultura
- Componentes externos para barcos, torres de comunicación y puertas
- Sector automotriz

Detalles del producto

- Libre de TGIC
- Cajas de 20 kg (44 lb) y minipacks de 2,5 kg (5 lb)
- Consulte la ficha técnica del producto para más detalles

* El segundo dígito en los códigos/nombres de productos 3D Metallic producidos en la Serie 138 se ha ajustado de 6 (en la Serie 68) a 8 para así ayudar a distinguir entre las dos se-ries. El color, el efecto y el brillo serán equiv-alentes.

** Consulte la ficha técnica del producto para obtener información detallada sobre los pa-rámetros de curado.
