About TIGER

- Dedicated global automotive R&D team (technical product managers, chemists, process engineers, etc.)
- Exceptional application field specialists to support production tests
- Unique customized solutions to pass your mobility requirements
- Winning track record with automotive OEMs, tier suppliers and job shops
- Full manufacturing commitment to powder: it is our specialty

TIGER Coatings is a global manufacturer of powder coatings and digital inks that serves an extensive variety of market segments including architectural, automotive, job shops and general industry, as well as agriculture and construction equipment, aerospace & defense and furniture manufacturers. TIGER operates North American manufacturing facilities in the US, Canada and Mexico, with multiple distribution points in each market under the brand name TIGER Drylac. TIGER is a global ISO 9001 (Quality) and ISO 14001 (Environmental) certified company. For additional information, visit www.tiger-coatings.com.

* Two-coat dormant transparent system. In order to achieve the Arctic Blue finish a clear top coat of TIGER Drylac® 16/00030 Clear Flat Matte is required.

Our automotive team at TIGER Drylac® is ready to help you!
