TIGER Drylac® Clear Coat

for Interior and Exterior Applications
 Actual Powder Coated Samples

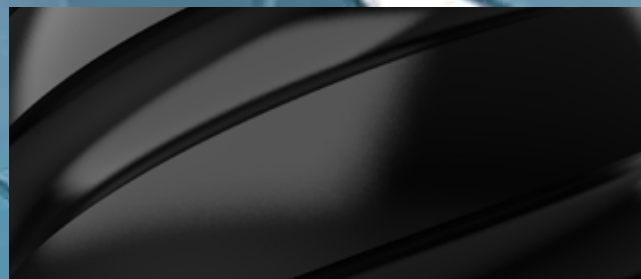

Did you know ...

... that 15 million km² of the Earth's surface is covered by glaciers? These humongous ice fields contain 70% of the global drinking water reserves. They also supply 1/3rd of the World's population with this liquid, which is imperative for our survival. Glaciers often appear in a blue shimmer as dense, compressed ice acts like a color filter to absorb red and yellow light - but reflect blue light.

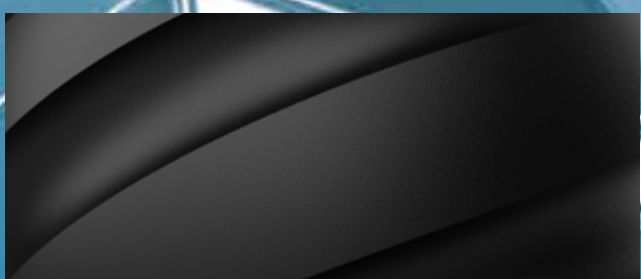

TIGER Drylac® Clear glossy - low cure | 40/00003

TIGER Drylac® Clear | 16/00019A3

TIGER Drylac® Clear | 16/00059

PU Clear Anti-Graffiti	44/00018	GL/GL

Base coat is a silver brilliant 59/91260 by way of illustration only, other base colors will affect final appearance.

Some color deviations might be noticeable due to application influences and the type of the top coat (gloss level, texture, etc.). These half-tubes are to be considered as an indication only. In practice, discrepancies between the color shown and the actual powder coating may be visible.
