+ Top coat 40/00003 clear glossy

+ Top coat 16/00059 clear matte

Did you know ...

... that Butterflies have been around for more than 200 million years? They flip-flop their colorful wings all over the planet, helping pollinate plants and always put a smile on our faces. There are over 160,000 species and while these fragile creatures are short sighted, they can detect UV-light (which cannot be seen by the human eye).

The colors featured in this color chart require a clear top-coat. Some color deviations might be noticeable due to application influences and the type of the top coat (gloss level). These half-tubes are to be considered as an indication only. In practice, discrepancies between the color shown and the actual powder coating may be visible. Please observe the instructions for Metallic Effect Application Categories A - D acc. to the Technical Information Sheet No. 44.  
ME Cat. = metallic category
