Did you
know ...

...coral reefs belong to the most versatile ecosystems of our planet? As living, breathing organisms they filter pollutants out of the water and help regulate the CO₂ footprint of the oceans. Those beautiful glowing animals (cnidarians) help us to fight global warming – but due to raising water temperatures – belong themselves to the endangered species.

Please note: all NEON colors can be coated with any suitable TIGER Drylac® clear top coat

The colors featured in this color chart require a clear top-coat. Some color deviations might be noticeable due to application influences and the type of the top coat (gloss level). These half-tubes are to be considered as an indication only. In practice, discrepancies between the color shown and the actual powder coating may be visible.
