Powder Coatings

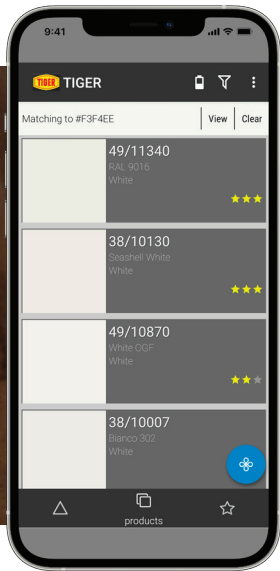

Meet the TIGER Match Stick

TIGER Drylac® offers the TIGER Match Stick: a color reader and customized mobile app used to scan the color of any surface, and match the color to TIGER Drylac® powder coating products.

TIGER Match Stick App

The TIGER Match Stick app integrates the device's color sensing technology, providing a seamless color communication tool for professional powder coaters, specifiers, painters, color sales representatives, graphic designers, and everyone in between. You can find the app on the App Store / Google Play by searching "TIGER Drylac".

Take the Guesswork out of Color Matching

We know your customers are demanding, so stop wasting time trying to match powder coat samples until you have taken away the guesswork. TIGER Match Stick puts precision color accuracy directly into your smart phone app.

Available to order directly from TIGER Drylac®. Contact us today to see how you can place an order on your account for a TIGER Match Stick.

TIGER Match Stick

Getting Started

1. Download the TIGER Drylac® App.
 - You can find it on the Apple App Store or Google Play Store by searching for “TIGER Drylac”.
2. Launch the app.
 - Launch app and select an account option: Create, Login, or Skip.
3. Connect to TIGER Match Stick.
 - In the TIGER Match Stick App, tap “connect device”.
 - Press wake button on the TIGER Match Stick to wake (LED indicator will flash).
 - The LED indicator will flash quickly once your smart-device finds TIGER Match Stick
4. Scan colors.
 - Place the TIGER Match Stick against any surface and press “scan” in the app.
 - The scanned color will appear (screen display color may not be accurate). Matching results will be displayed with top result listed first, second closest match second, etc.
